

# Diana Kander – Technical Requirements

---

## *Diana Kander's Technical Requirements - Live Events*

Diana's requirements are as follows:

- Lavalier Microphone for Diana
- Handheld Microphone(s) for audience Q&A Screen - as large as the room will hold
- LCD Projector
- HDMI Cord - to connect to Diana's MacBook on stage
- PowerPoint Clicker
- Small table with water on stage

***Diana controls her own slide deck - her Macbook must be located on stage***

**PLEASE NOTE: Diana can provide a DRAFT of her slide deck in advance. Since she always makes last-minute adjustments onsite, the final version will be loaded on her computer, along with a backup in case of emergencies.**

## *Diana Kander's Technical Requirements - Virtual Events*

### Client's Requirements

- Diana's virtual presentation can be hosted on the client's existing platform
- The client hosts and moderates the meeting and is responsible for invitations and/or event registration
- Diana's sessions are very interactive - she prefers engaging participants via both audio and video - and to have access to a chat function during the event.

### Rehearsal

A week or so prior to your virtual session, Diana requires a dry-run with the moderator and host of the meeting. On the day of the event, Diana will join the host 30 to 60 minutes prior to the event start time. She will mute her video and audio until she is introduced.

### Inside Diana's Studio

- Sony A7c Full Frame Camera
- Logitech Brio 4K Webcam
- RODE Studio Microphone
- Elgato Camlink HD Streaming Filter
- MacBook Mini
- MacBook
- Various LED Lights
- 48" Presentation Monitor
- Typically streams through MMHMM Virtual Camera Feed
